Improvement needed in all

Good Supervision, Good Dept, Good Library..Must

be hardwork

Overall it was good

It gives me great pleasure to give the teacher a suitable weekly plan for doctoral research and to point out the mistakes in it and correct it.

For learning it's is best experience to me calm and peace

I completed one year in. campus, overall experience is satisfactory.

Academic guidance is good but not much resources to foster research and not a good environment for the scholars as we are treated as second grade citizens when it comes to the matter of hostel and mess..no proper drinking water facility..no bulbs in the hostel building..

Dravidian University is one of the Best platforms to gain research knowledge

Research is a lengthy process to accustom the environment and continue their research, scholars should be provided some minimal basic facilities like updated library, Internet, proper food and accommodation etc.
