

The University

The Dravidian University was established through a Legislature Act of Andhra Pradesh in the year 1997 and conceived as an Inter - State Institution. The neighboring Governments of Tamil Nadu, Karnataka and Kerala have extended initial support. The University located in a serene rural setting with pleasant greenery spread over the spacious campus about 1090 acres endowed with huge deposits of granite, giving a picture of rock garden, is one of the most ideally suited institutions for quiet and dedicated studies and research harmonizing the individual, both internally and externally. The basic aim of the University is to promote Dravidian Language, Literature, Dravidian Culture History and Folk and Tribal Studies. There are 27 Dravidian Languages have come under one umbrella. The Dravidian Languages family is the second largest in India and their culture is highly regarded for their unique ethno-cultural characteristics.

About The Department

Dept. of Computer Science was established in the year 1999. The main objective of the Department is to promote teaching and research in the Computer Science. The Department of Computer Science with its dedicated and well qualified faculty, technical staff, research scholars and students, is a center of excellence in computer science through education and research. The department is offering various courses like Master of Computer Applications (MCA), Two Year PG program in Computer Science and Bachelor Degree in Computer Science through Choice Based Credit System

(CBCS) along with the department is focusing research activities like M.Phil and Ph.D.

About the Seminar

Literacy skills have always been important. In centuries past, people communicated via letters. These letters soon turned into telegraph messages. From there we advanced to the telephone, internet and then text messaging via a phone. "We will not be able to achieve a liberating, collective intelligence until we can achieve a collective digital literacy, and we have now, more than ever, perhaps, the opportunity and the technologies to assist us in the human project of shaping, creating, authoring and developing ourselves as the formers of our own culture. To this end, we must create the conditions for people to become wise in their own way." .Digital Literacy: Human Flourishing and Collective Intelligence in a Knowledge Society.

Papers are invited on any one of the sub – themes:

Raising a good Digital Citizen
Improve Digital Literacy Skills
